

# SUBJECT INDEX

Action research, on nursing management in hematology/oncology day unit, 75  
Adaptation, life values and for breast cancer patients, 295  
Adjuvant endocrine therapy, for early breast cancer, 48  
Advance cancer treatment, nurse-family communication in, 337  
Advance directives, assisting patients with, 105  
Adverse events, in cancer therapy, 119  
African Americans, cancer fatalism among, 454  
Aggressive therapy, perceived impact of, 1  
Alternative treatments, for eastern Turkey cancer patients, 230  
Anastrozole, for advanced breast cancer, 105  
Anemia  
  cancer-related, 38S  
  in cancer therapy, 119  
  therapeutic implications and interventions for, 119, 129  
Anticancer agents, advances in, 25  
Antiemetics, in cancer treatment, 331  
Antitumor agents, for ovarian cancer, 165  
Aromatase inhibitors  
  for advanced breast cancer, 105  
  for early breast cancer, 48  
Assistance, for siblings of children with cancer, 203  
Assisted dying, symptom management in, 392  
ATAC (Arimidex, Tamoxifen Alone or in Combination) trial, for early breast cancer endocrine treatment, 48  
Attentional fatigue, in newly diagnosed breast cancer patient, 284, 293  
Augmentative communication, after head and neck surgery, 346  
Australia, mammograms and pap smears for deaf women in, 405  
*bcr-abl* gene, in chronic myelogenous leukemia, 26S  
Bcr-Abl protein, for leukemia treatment, 26S  
Behavioral-emotional problems, in children of parent with cancer, 195

Biologic therapy, for leukemia, 26S  
Bisphosphonates, for advanced breast cancer, 10S  
Bone marrow transplantation  
  fatigue and quality of life with hematologic malignancy after, 211  
  hematologic malignancy among Chinese patients after, 220  
Brachytherapy, intravascular, for cardiac restenosis, 494  
Brain tumor, quality of caregivers of Taiwanese children with, 305  
BRCA1/2 mutation carriers, estrogens in, 421  
Breast cancer  
  advanced, clinical trials for  
  managing, 10S  
  Cowden syndrome and, 370  
  early adjuvant therapy for, 48  
  efficacy of group intervention by telephone in, 439  
  eliciting meaning in context of, 169  
  environmental intervention for patient newly diagnosed with, 284, 293  
  experience of Israeli women with and intentions to undergo screening tests for, 363  
  external breast prosthesis for, 179  
  life values in patients with, 295  
  medical encounters with health providers in, 323  
  mother-child relationships with, 47  
  Multidimensional Fatigue Inventory for, 143  
  quality of life for older survivors of, 431  
Breast prosthesis, experience with, 179  
Canada, capecitabine experience in, 161  
Cancer care, preparing for new age of, 400  
Cancer experience  
  in Israeli women's intentions to undergo screening tests, 363  
  of older people, 85  
Cancer fatalism, research on, 454  
Cancer nurses, personality profile of, 97  
Cancer-related fatigue, among French Canadians, 143  
Cancer research, advances in, 25  
Cancer risk, BRCA1/2 mutation in, 421  
Cancer side effects, managing, 45  
Cancer survivors  
  older, quality of life for, 431  
  quality of life in, 237  
Capecitabine, current Canadian experience with, 161  
Care  
  barriers to  
    cancer fatalism and, 454  
  for siblings of children with cancer, 203  
Caregivers  
  informal, with terminally ill patients in Hong Kong, 276  
  in psychosocial support, 18  
  in reporting patients' symptom intensity, 113  
  sleep loss and depression in, 253  
  spiritual needs of, 260  
  of Taiwanese children with brain tumor, quality of life among, 305  
  telephone support for, 448  
  for terminally ill patients in Hong Kong, 267  
Caregiving, process of in Chinese families, 267  
Catastrophic thinking, in nasopharyngeal carcinoma patients, 485  
CE tests, 43S, 45, 129, 220, 293, 385, 466  
Cervical cancer  
  experience of Israeli women with and intentions to undergo screening tests for, 363  
Chemotherapy  
  for advanced breast cancer, 10S  
  antiemetics with, 331  
  cognitive function and, 38S  
  feasibility of exercise during, 410  
  myelosuppression associated with, 32S  
  for ovarian cancer, advances in, 16S  
  palliative care for oral mucositis symptoms in children on, 476  
  psychosocial support for, 18  
  repeat measurement of symptoms of, 468  
Children  
  with brain tumor, quality of caregivers of, 305  
  of breast cancer patients, 47

care for siblings of, 203  
 coping with cancer in parent, 355  
 ovarian cancer diagnosis impact on  
 concerns about, 1  
 palliative care for oral mucositis in, 476  
 of parent with cancer, psychosocial  
 consequences for, 195  
 Chinese American women, mammography  
 screening beliefs among, 131  
 Chinese cancer patients  
 with hematologic malignancy, fatigue  
 and quality of life among, 211, 220  
 hope levels among after diagnosis, 155  
 Chinese population  
 family caregiver experience for terminally  
 ill patients in, 267  
 informal caregivers of terminally ill  
 patients in, 276  
 quality of life among caregivers of chil-  
 dren with brain tumor in, 305  
 Cisplatin-doxorubicin, antiemetics  
 with, 331  
 Clinical trials  
 for advanced breast cancer, 10S  
 for leukemia treatment, 26S  
 recruitment and retention in, 376, 385  
 Cognitive function  
 with cancer-related anemia, 38S  
 in coping with cancer pain, 61  
 in newly diagnosed breast cancer patient,  
 284, 293  
 Communication  
 with deaf women, 405  
 with families of advanced cancer  
 patients, 337  
 postoperative needs for in head and neck  
 surgery, 346  
 in psychosocial support, 18  
 Community-based programs, in quality of  
 life, 37  
 Complementary-alternative medicine, for  
 Turkish cancer patients, 230  
 Control, over disease in Israeli women's  
 intentions to undergo screening  
 tests, 363  
 Coping strategies  
 of breast cancer patient, 47  
 for cancer in parent, 355  
 hope in, 61  
 for informal caregivers of terminally ill  
 patients in Hong Kong, 276  
 Cowden syndrome, hereditary breast cancer  
 and, 370  
 Cross-sectional study, of meaning of illness  
 in breast cancer patients, 169  
 Daily living activities  
 impact of ovarian cancer diagnosis  
 on, 1  
 of older people living with cancer, 85  
 Darbepoetin alfa  
 for cancer-related anemia, 38S  
 in managing hematologic toxicities  
 of, 32S  
 Day care, oncology, improving nursing  
 management in, 75  
 Deaf women, mammograms and pap smears  
 for, 405  
 Death, preferred of place of in terminally ill  
 patients, 245  
 Decision making  
 in cancer treatment process, 323  
 in recurrent ovarian cancer, 10  
 Depression  
 in family caregivers, 253  
 with lung cancer, 237  
 Dexamethasone, for emesis prevention in  
 cancer treatment, 331  
 Diagnosis  
 hope level changes after, 155  
 perceived impact of, 1  
 of recurrent ovarian cancer, 10  
 Education  
 for new age of cancer care, 400  
 Elderly, living with cancer, 85  
 Emesis prevention, in cancer treatment, 331  
 Emotional problems, in children of parent  
 with cancer, 195  
 End of life  
 assisting patients with issues of, 105  
 preference of place of death in, 245  
 symptom management in, 392  
 Endocrine therapy, new developments  
 in, 4S  
 Environmental intervention, for newly diag-  
 nosed breast cancer patient, 284, 293  
 Epidermal growth factor receptor tyrosine  
 inhibitors, therapeutic applications  
 of, 21S  
 Epoetin alfa, for cancer-related anemia, 38S  
 Erythropoiesis stimulation, for anemia in  
 cancer, 119  
 Erythropoietin replacement therapy, for  
 cancer-related anemia, 38S  
 Estrogen, in BRCA1/2 mutation carriers,  
 421  
 Estrogen-receptor modulators, for advanced  
 breast cancer, 10S  
 Exemestane, for advanced breast cancer, 10S  
 Exercise, during multiple myeloma  
 treatment, 410  
 Family  
 communication in about advance cancer  
 treatment, 337  
 functioning of with parental cancer, 195  
 Family caregivers  
 in psychosocial support, 18  
 sleep loss and depression in, 253  
 spiritual needs of, 260  
 telephone support for, 448  
 for terminally ill patients in Hong  
 Kong, 267  
 Family relationships  
 of breast cancer patient, 47  
 impact of ovarian cancer diagnosis on, 1  
 Fatalistic beliefs, among cancer patients, 454  
 Fatigue  
 among Chinese patients with hemato-  
 logic malignancy after bone marrow  
 transplantation, 211, 220  
 attentional, in newly diagnosed breast  
 cancer patient, 284, 293  
 measurement of among French Canadi-  
 ans, 143  
 during multiple myeloma treatment, 410  
 in nasopharyngeal carcinoma  
 patients, 485  
 Fellow patients, in cancer patient  
 experience, 68  
 French Canadians, cancer-related fatigue  
 among, 143  
 Fulvestrant, for advanced breast cancer, 10S  
 Functional status, after peripheral blood  
 stem cell transplantation, 312  
 Gene mutation, in hereditary breast  
 cancer, 370  
 Genetic risk assessment, for breast  
 cancer, 370  
 Genetic testing  
 for BRCA1/2 mutation carriers, 421  
 for hereditary breast cancer, 370  
 Group intervention, efficacy of for women  
 with breast cancer, 439  
 Hand-foot syndrome, with capecitabine  
 therapy, 161  
 Head and neck cancer, radiation-induced  
 oral mucositis with, 222  
 Head and neck surgery, postoperative  
 communication needs with, 346  
 Health care beliefs, among Chinese Ameri-  
 can women, 131  
 Health care professionals  
 attitudes of toward recurrent ovarian  
 cancer, 10  
 medical encounters with, 323  
 in psychosocial support, 18  
 supporting informal caregivers of termi-  
 nally ill patients in Hong  
 Kong, 276  
 Hematologic malignancy  
 in Chinese patients, fatigue and quality  
 of life among, 220  
 fatigue and quality of life with, 211  
 Hematologic toxicity, management  
 of, 32S  
 Hematology/oncology day unit, improving  
 nursing management in, 75  
 Hematopoietic growth factors, managing  
 toxicities of, 32S  
 HER2, for advanced breast cancer, 10S  
 Herbal therapies, for Turkish cancer  
 patients, 230

Hong Kong  
family caregiver experience for terminally ill patients in, 267  
fatigue and quality of life among patients with hematologic malignancy in, 211  
informal caregivers of terminally ill patients in, 276  
Hope  
after diagnosis among Taiwanese patients, 155  
with cancer pain, 61  
in nasopharyngeal carcinoma patients, 485  
Hormonal therapy, for advanced breast cancer, 10S  
Hospice  
in reporting patient symptom intensity, 113  
in telephone support for caregivers, 448  
Hospice home care nurses, for informal caregivers of terminally ill patients in Hong Kong, 276  
Hospital care, nurse-family communication in, 337  
Ifosfamide, antiemetics with, 331  
Imatinib mesylate, for leukemia, 26S  
Information  
in psychosocial support, 18  
in quality of life, 37  
Informed consent, in cancer treatment process, 323  
Instrument testing, for role-related meaning scale, 187  
Interventions  
anemia and, 119  
for anemia in cancer, 129  
efficacy of for breast cancer, 47  
Intracranial tumors, stereotactic radiosurgery for, 494  
Investigational treatments, for ovarian cancer, 16S  
Iron supplementation, for anemia in cancer, 119  
Israeli women, experience in intention to undergo screening tests among, 363  
Korea, research priorities of oncology nurses in, 387  
Letrozole, for advanced breast cancer, 10S  
Leukemia  
chronic and blastic phases of, 26S  
chronic myelogenous, incidence of, 26S  
innovations in management of, 26S  
Life satisfaction, after peripheral blood stem cell transplantation, 312  
Life values, in breast cancer patients, 295  
Lung cancer  
non-small cell, epidermal growth factor receptor tyrosine inhibitors for, 21S

quality of life in survivors of, 237  
recruitment and retention of participants in clinical trials for, 376  
recruitment and retention of women in clinical trials for, 385  
Mammography screening  
for Australian deaf women, 405  
beliefs questionnaire of, reliability and validity of among Chinese American women, 131  
Meaning, role-related, for pediatric oncology staff, 187  
Meaning of illness, in breast cancer, 169  
Media news, 83, 160, 229, 304, 409, 493  
Medical encounters, with health providers, 323  
Metastatic breast cancer, clinical trials for managing, 10S  
Minorities, needs of in screening tests, 405  
Monoclonal antibodies, for advanced breast cancer, 10S  
Mood disturbance, during treatment for multiple myeloma, 410  
Mother-child relationships, of breast cancer patient, 47  
Mouthwash, for oral mucositis symptoms in children during chemotherapy, 476  
Mucositis, oral  
palliative care for in pediatric patients, 476  
radiation-induced, 222  
Multidimensional Fatigue Inventory, validation of for French Canadians, 143  
Multiple hamartoma syndrome, in hereditary breast cancer, 370  
Multiple myeloma, feasibility of exercise during treatment of, 410  
Multisite clinical research, recruitment and retention in, 376, 385  
Mutations carriers, estrogens in, 421  
Myelosuppression, chemotherapy-associated, 32S  
Narratives  
of preparation for new age of cancer care, 400  
with untreated prostate cancer, 55  
Nasopharyngeal carcinoma, symptom distress, catastrophic thinking, and hope in patients with, 485  
Neoadjuvant therapy, in early breast cancer endocrine treatment, 4S  
Non-small cell lung cancer, epidermal growth factor receptor tyrosine inhibitors for, 21S  
Nonspeaking patients, needs of after head and neck surgery, 346  
Nurse-family communications, in advance cancer treatment, 337  
Nurse-patient communications, in psychosocial support, 18

Nurses, oncology  
personality profile of, 97  
in psychosocial support, 18  
social interaction with, 28  
Nursing education, for new age of cancer care, 400  
Nursing practice  
advance directives in, 105  
advances in, 2S  
Nursing roles  
in capecitabine therapy, 161  
in fitting external breast prostheses, 179  
Nursing theory, on social interaction, 28  
Nutrition, for anemia in cancer, 119  
Older survivors, quality of life for, 431  
Oncology nursing, research priorities of, 387  
Optimism, unrealistic, in Israeli women's intentions to undergo screening tests, 363  
Oral care, for pediatric patients on chemotherapy, 476  
Oral pain, radiation-induced, 222  
OSI-774, for non-small cell lung cancer, 21S  
Outcomes, anemia and, 119  
Ovarian cancer  
perceived impact of, 1  
recurrent, experiences with, 10  
treatment advances in, 16S  
Pain  
in cancer patients, 61  
intensity of, hospice and caregiver congruence in reporting of, 113  
management of, 37  
in nasopharyngeal carcinoma patients, 485  
Palliative care  
in assisted dying and end of life, 392  
for oral mucositis symptoms in pediatric cancer patients on chemotherapy, 476  
Palliative care nurses, personality profile of, 97  
Pap smears, for Australian deaf women, 405  
Parental cancer  
coping with, 355  
psychosocial consequences for children of, 195  
Patient education programs  
in hematology/oncology day unit, 75  
in quality of life, 37  
Patient partnerships, in capecitabine therapy, 161  
Patient-physician relationship, patient recommendations for, 323  
Patient recommendations, for health providers, 323

Patient satisfaction  
 with measurement of chemotherapy side effects, 468  
 relatives in, 68

Pediatric oncology staff, role-related meaning scale for, 187

Pegfilgrastim, in managing hematologic toxicities of, 325

Perceived support, among older breast cancer survivors, 431

Peripheral blood stem cell transplantation, quality of life after, 312

Personality profile, of cancer nurses, 97

Phenomenologic hermeneutics, in untreated prostate cancer, 55

Piper Fatigue Scale, Revised, for Chinese patients with hematologic malignancy, 211

Prostate cancer  
 Multidimensional Fatigue Inventory for, 143  
 seed implants for, stereotactic radiotherapy for, 494  
 untreated localized, 55

Prosthesis, external breast, experience with, 179

Psychological adaptation, life values and for breast cancer patients, 295

Psychometrics, validation of for French Canadians, 143

Psychosocial care, in hematology/oncology day unit, 75

Psychosocial life stages, of older breast cancer survivors, 431

Psychosocial problems, in children of parents with cancer, 195

Psychosocial support  
 efficacy for of women with breast cancer, 439  
 oncology nurses in, 18

Qualitative analysis  
 of assisting patients with advance directives, 105  
 of untreated prostate cancer patients, 55

Qualitative interviews, on self-help group participation, 28

Qualitative methodology, for mother-child relationship with breast cancer, 47

Qualitative research  
 in assisted dying and end of life symptom management, 392  
 on experience with external breast prosthesis use, 179

Quality of life  
 after peripheral blood stem cell transplantation, 312  
 among Chinese patients with hematologic malignancy after bone marrow transplantation, 211, 220  
 anemia and, 119  
 in breast cancer patients, 169

of children with cancer in parent, 355  
 group intervention by telephone and, 439

in lung cancer survivors, 237  
 managing cancer side effects in, 37, 45  
 in nonspeaking patients after head and neck surgery, 346

for older breast cancer survivors, 431  
 and participation in multisite clinical research, 376

in primary caregivers of Taiwanese children with brain tumor, 305

recurrent ovarian cancer and, 10  
 relatives and, 68  
 therapies for in ovarian cancer, 165

Radiation therapy  
 oral mucositis after, 222  
 symptom distress, catastrophic thinking and hope in nasopharyngeal carcinoma patients undergoing, 485

Recruitment methods, for women in multisite clinical research, 376, 385

Recurrent disease, experiences with, 10

Relationships, impact of ovarian cancer diagnosis on, 1

Relatives, of cancer patients, 68

Religion, among cancer patients and caregivers, 260

Research  
 advances in, 25  
 on nursing management in hematology/oncology day unit, 75  
 priorities of in Korean oncology nurses, 387  
 recruitment and retention in, 376

Restorative environment, for newly diagnosed breast cancer patient, 284, 293

Risk factors, for breast cancer, 370

Role-related meaning scale, for pediatric oncology staff, 187

Screening beliefs, among Chinese American women, 131

Screening tests  
 cancer fatalism and, 454  
 for deaf women, 405  
 unrealistic optimism, perceived control over disease, and experience in intentions to undergo in Israeli women, 363

Self-help groups, exploring and encouraging through, 28

Sexuality, impact of ovarian cancer diagnosis on, 1

SF-36 Health Survey, of Chinese patients with hematologic malignancy, 211

Siblings, of children with cancer, 203

Side effects  
 management of, 37  
 management of with capecitabine, 161

repeat measurement of in chemotherapy, 468

Sleep  
 disturbance of in family caregivers, 253  
 during treatment for multiple myeloma, 410

Social interaction, encouraging through, 28

Social support  
 among older breast cancer survivors, 431  
 for cancer patients, 68  
 for informal caregivers of terminally ill patients in Hong Kong, 276

Social values, in breast cancer patients, 295

Specialist practitioner, preparing for new age of cancer care, 400

Spiritual needs, of cancer patients and family caregivers, 260

Staff-patient ratios, in hematology/oncology day unit, 75

Staffing allocation, in hematology/oncology day unit, 75

Stem cell transplantation, quality of life after, 312

Stereotactic radiosurgery, for intracranial tumors, prostate cancer, and intravascular brachytherapy, 494

Stinging nettle, for Turkish cancer patients, 230

Stomatitis, radiation-induced, 222

Support network  
 among older breast cancer survivors, 431  
 for caregivers, 448  
 in hematology/oncology day unit, 75  
 impact of ovarian cancer diagnosis on, 1  
 self-help groups in, 28  
 for siblings of children with cancer, 203

Symptoms  
 distress of in nasopharyngeal carcinoma patients, 485  
 management of  
 with anemia, 119  
 end-of-life, 392  
 repeat measurement of in chemotherapy, 468  
 reporting intensity of, 113

Taiwan  
 cancer patients of, hope levels among after diagnosis, 155  
 quality of life among caregivers of children with brain tumor in, 305

Tamoxifen  
 for advanced breast cancer, 105  
 for early breast cancer, 48

Targeted molecular therapy, for advanced breast cancer, 105

Teamwork, in treatment of advanced cancer patients, 337

Telephone support  
 for caregivers, 448  
 efficacy of for women with breast cancer, 439

Terminally ill patients  
family caregiving for in Hong Kong, 267  
informal caregivers for in Hong Kong, 276  
preference of place of death of, 245

Thalidomide, exercise and mood disturbance with, 410

Therapy  
anemia and, 119  
for anemia in cancer, 129  
optimization of, patient partnerships in, 161

Tropisetron, for emesis prevention in cancer treatment, 331

Tumor suppressor gene, in hereditary breast cancer, 370

Turkey, complementary alternative treatments in, 230

Tyrosine kinase, for leukemia treatment, 26S

Tyrosine kinase inhibitors, therapeutic applications of, 21S

Uncertainty, in older breast cancer survivors, 431

Underserved populations, cancer fatalism among, 454

United Kingdom, personality profile of cancer and palliative care nurses in, 97

Untreated cancer, of prostate, 55

*Urtica dioica*, for Turkish cancer patients, 230

Values, in breast cancer patients, 295

Visual Analogic Scale, in assessing chemotherapy side effects, 468

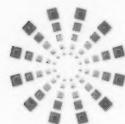

Voice quality, after head and neck surgery, 346

Watchful waiting, with untreated prostate cancer, 55

Well-being, of children with cancer in parent, 355

Women  
with breast cancer, efficacy of group intervention by telephone for, 439  
deaf, mammograms and pap smears for, 405  
perspectives of  
on ovarian cancer diagnosis, 1  
on recurrent ovarian cancer, 10  
recruitment and retention of in clinical trials for lung cancer, 376, 385

ZD1839, for non-small cell lung cancer, 21S
